

### TECHNICAL DETAILS

### DIMENSIONS (inch/mm)

RGB 150

RGB 300

### TECHNICAL SPECS

|                       |           | RGB             |                  |
|-----------------------|-----------|-----------------|------------------|
|                       |           | 150             | 300              |
| REEL                  | Model     | CB-RGB-12V-REEL | CB-RGB2-12V-REEL |
|                       | LED Chips | 150             | 300              |
|                       | Lumens    | Up to 2,165     | Up to 4,724      |
|                       | Watts     | 36              | 72               |
|                       | Amps      | 3               | 6                |
| FOOT                  | Model     | CB-RGB-12V-FOOT | CB-RGB2-12V-FOOT |
|                       | LED Chips | 9               | 18               |
|                       | Lumens    | Up to 132       | Up to 288        |
|                       | Watts     | 2.2             | 4.4              |
|                       | Amps      | 0.18            | 0.37             |
| Color Wavelength      |           | RGB             | RGB              |
| Color Rendering Index |           | Not Applicable  | Not Applicable   |
| LED Chip Type         |           | 5050 SMD        | 5050 SMD         |
| Max. Run in Series    |           | 32ft 10in/10m   | 16ft 5in/5m      |

### SAFETY INFORMATION

- Please consult an electrician before doing any electrical work.
- The strip and its components cannot be mechanically pressed.
- Correct electrical polarity needs to be addressed.
- Pay attention to ESD precautions during assembly.
- Installation should be done by an electrician.
- Ensure that the power supply is able to operate the total load, failure to do so may cause damage to the LEDs or the driver.

### STORAGE CONDITIONS

- The LEDs should be kept at ≤ 86° F and ≤ 70% RH.
- When storing the LEDs use moisture proof packaging with absorbent silica gel packets.
