

Leona® Smart Home Outlet

Product Data Sheet

Leona® Smart Home Outlet

Product Data Sheet

Features

- Control your home devices with the Leona® Smart Home Outlet via the Leona® Smart app.
- Voice control capable when used with Amazon Alexa or Google Home. No hub required.
- Devices can be controlled individually or in groups. There are 2 AC ports and 1 USB port, so you can use appliances and charge other devices at the same time.
- Schedule your Leona® Smart Home Outlet to automatically power electronics on and off as needed.
- Simple installation: Just follow the installation instructions below and connect it to your Wi-Fi network.
- Overload protection, very low electricity consumption.

Mechanical Drawing

Specifications

SKU	Voltage Input	Max Load	Signal Type	Signal Range	Operating Frequency
LEO-OUTLET-120V	120V	10A, 1200W	Wi-Fi	30 meters	2.4 GHz

Installation Instructions

1. Remove the screws from the outlet. Remove the wall plate.
2. Attach the wires as follows: "L" to LIVE, "N" to Neutral, and "G" to GND.

3. Attach the wires as follows: "L" to LIVE, "N" to Neutral, and "G" to GND.
4. Put back the wall plate and then put the screws on their corresponding holes.

5. The white plastic covers can be placed over the holes to make the wall plate look entirely white.

6. Turn on power.
7. The indicator light will flash quickly and go into standby mode. It is now ready to be paired.

Download and Connect App

App and Device Set Up video: [Here](#)

1. **Connect to Wi-Fi 2.4GHz and activate Bluetooth** to ensure quick pairing is enabled.

Please Note:

Leona® Smart products are not compatible with 5GHz Wi-Fi signal.

2. **Download Leona® Smart app** from the iOS App Store or Google Play Store. The app is compatible with Android 4.0 and iOS 8.1 or higher.

3. Open the Leona® Smart app on your smartphone and either **sign up** for a new account or log in with an existing account.
4. **Make sure the Leona® Smart Home Outlet is on standby mode** (the blue indicator light will flash 2 times per second).

5. Open the app and **tap on “+” to add the device.**

6. Then tap on "Electrical" to select your device.

7. Select your Wi-Fi network, input your Wi-Fi password, and tap on "Next".

8. Confirm that the device indicator is rapidly blinking (or reset the device by holding down the power button for 5 seconds) and tap "Next" to complete the process.

9. Once pairing is complete, you are now able to pair your Leona® Smart Home Outlet with third-party smart home apps such as Google Home and Amazon Alexa.

If you want to add a new device under AP (Access Point) Mode, please follow steps from 1 to 4 above and then:

1. Tap on “AP Mode” and confirm that the device indicator is rapidly blinking (or reset the device by holding down the power button for 5 seconds).
2. Select your Wi-Fi network, input your Wi-Fi password, and then tap on “now” to go to WLAN settings in your smartphone. Select the Leona® Smart network for your Wi-Fi. Input your password after you select it.
3. Go back to the app and the app will start connecting.
