### ASI 388 Clear

#### Section 1: Product and Company Identification

American Sealants, Inc. 9190 Yeager Ln Fort Wayne, Indiana 46809 Phone: 260-489-0728 Fax: 260-489-0519 Emergency Phone Number Infotrac: +1-800-535-5053 (Within US) Infotrac: +1-352-323-3500 (Outside US)

Product Identifier: Recommended Use: Restrictions on Use: ASI 388 Clear RTV rubbers (for electrical, electronic and general industry (gluing and sealing)) Industrial use only.

#### Section 2: Hazard(s) Identification

Classification in accordance with 29 CFR 1910.1200. Serious eye damage/eye irritation, Category 2 Sensitization, skin, Category 1 Reproductive toxicity (fertility), Category 2

Specific target organ toxicity, repeated exposure, Category 2 (Cardiovascular/Hematological: hematopoiesis)

Acute and Delayed Effects:

Dermatitis. Rash. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Prolonged exposure may cause chronic effects.

Indication of Immediate Medical Attention and Special Treatment Needed, If Needed:

GHS Label Elements Symbol(s):

Signal Word: Hazard Statement(s): Treat symptomatically and supportively.

Warning Causes serious eye irritation. May cause an allergic skin reaction. Suspected of damaging fertility. May cause damage to organs (Cardiovascular/Hematological: hematopoiesis) through prolonged or repeated exposure.

Precautionary Statement(s) Prevention:

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

Product Identifier: ASI 388 Clear

| Section 4: First- | Aid Measures  |
|-------------------|---|
| Inhalation:       | IF INHALED: Remove to fresh air.<br>Get medical attention if symptoms occur.  |
| Skin Contact:     | IF ON SKIN: Wash off with plenty of soap and water.<br>For minor skin contact, avoid spreading material on unaffected skin.<br>Get medical advice/attention if symptoms occur.<br>Take off contaminated clothing and wash before use. |
| Eye Contact:      | IF IN EYES: Flush eyes with water as a precaution. Remove contact lenses, if present and easy to do. Continue rinsing.<br>If eye irritation develops and persists: Get medical advice/attention.                                      |
| Ingestion:        | Rinse mouth thoroughly with water.<br>Get immediate medical attention if symptoms occur.  |

| Section 5: Fire-Fighting Measures  |   |
|--|---|
| Suitable Extinguishing Media:  | Use carbon dioxide, regular dry chemical powder, alcohol-resistant<br>foam, or water fog.   |
| Unsuitable Extinguishing Media:  | None known.   |
| Specific Hazards Arising from the Chemi<br>Hazardous Decomposition Products: | cal<br>By heating and fire, harmful vapors/gases may be formed.<br>Nitrogen oxides. (corrosive)   |
| Special Protective Equipment and Precautions for Firefighters:               | Firefighters must use standard protective equipment including flame retardant coat, helmet, gloves, rubber boots, and self-contained breathing apparatus. |
| Specific extinguishing methods:  | Move containers from fire area if you can do so without risk.   |

| Section 6: Accidental Release Measur                                    | es   |
|---|--|
| Personal Precautions, Protective<br>Equipment and Emergency Procedures: | Keep unnecessary personnel away.<br>Do not touch or walk through spilled material.<br>Ensure adequate ventilation.<br>Wear appropriate personal protective equipment.  |
| Environment Precautions:  | Prevent further leakage or spillage if safe to do so. Local authorities should be advised if significant spillages cannot be contained.  |
| Methods and Materials for Containment<br>and Cleaning Up:               | Eliminate sources of ignition.<br>Large Spills: Dike the spilled material, where this is possible. Cover<br>with plastic sheet to prevent spreading. Use a non-combustible<br>material like vermiculite, sand or earth to soak up the product and<br>place into a container for later disposal.<br>Small Spills: Wipe up with absorbent material (e.g. cloth, fleece).<br>Clean surface thoroughly to remove residual contamination.<br>Never return spills in original containers for re-use. |

| Section 7: Handling and Storage            |   |
|--|---|
| Precautions for Safe Handling              |   |
| Protective Measures:                       | Provide adequate ventilation. Use care in handling/storage. Obtain<br>special instructions before use. Do not handle until all safety<br>precautions have been read and understood.<br>Do not breathe mist or vapor.<br>Avoid contact with eyes. Avoid contact with skin. |
| Advice on General Occupational<br>Hygiene: | Do not eat, drink, or smoke when using this product.  |

|   | Wash thoroughly after handling.<br>Wash contaminate clothing before reuse.   |  |
|---|--|--|
| Conditions for Safe Storage, including any Incompatibilities: | Store locked up. Keep in original container and tightly closed<br>Keep out of the reach of children.<br>Store in a cool, dry place out of direct sunlight. |  |
| Incompatibilities:  | Strong oxidizing agents, water, moisture   |  |

| Reproductive Toxicity:  | Octamethylcyclotetrasiloxane administered to rats by whole body<br>inhalation at concentrations of 500 and 700 ppm for 70 days prior to<br>mating, through mating, gestation and lactation resulted in decreases in<br>live litter size. Additionally, increases in the incidence of deliveries of<br>offspring extending over an unusually long time period (dystocia) were<br>observed at these concentrations. Statistically significant alterations in<br>these parameters were not observed in the lower concentrations<br>evaluated (300 and 70 ppm). In a previous range-finding study, rats<br>exposed to vapor concentrations of 700 ppm had decreases in the<br>number of implantation sites and live litter size. The significance of these<br>findings to humans is not known. [Octamethylcyclotetrasiloxane]<br>Developmental toxicity: NOAEL 500mg/kg/day (Rat), Maternal toxicity:<br>NOAEL 500mg/kg/day (Rat) [Alkoxysilane] |
